

“What CFMU Students Are Saying...”

CFM University has been a great benefit to our local ministry here in southern California, helping our people learn how to do Freedom in Christ in their church. Having a tool that does the training in such a clear way has greatly expanded the ministry across the United States. The Practicums have been a great resource as well to connect people to others in their region and increased their confidence in how to start the ministry and how to lead others to freedom. And the community provided by the CFM NETWORK is so important in encouraging and providing prayer support to advance this message! – JL, California

At **Practicum**, the ‘family’ atmosphere was absolutely wonderful! I received much encouragement and help in taking people through the ‘Steps’. We have launched our CFM in Colorado Springs, with special emphasis on developing prayer coverage. Our church leaders are telling us, ‘Full speed ahead!’ We have even hosted Neil and Rich for a weekend event. The Lord is already raising up other people interested in CFM’s from other churches and towns around us!” – Mr. & Mrs. H, Colorado

“I like the **online course** because it was very user friendly – I’m technically challenged. It was easy to use and right on point.” – TC, Florida

I was absolutely amazed how intentional the staff and Community Freedom Ministry Associates were about helping us mobilize these ministries. CFMU gave the participants the opportunity to share ideas, challenge each other and work with the material the way it best suited our own needs.

Phenomenal privilege.

– JP, Michigan
